## Match Internship 2024 / 2025 New Application

### Description

The Maternal, Adolescent, and Child Health Institute is seeking highly motivated and dedicated individuals to join our team as Match Interns. This internship offers a valuable opportunity for students or recent graduates interested in maternal, adolescent, and child health to gain hands-on experience and contribute to meaningful projects in the field. As a Match Intern, you will work closely with our team of experts and researchers to support ongoing initiatives aimed at improving the health and well-being of mothers, adolescents, and children.

### Responsibilities

- **Research Support:** Assist in conducting literature reviews, gathering data, and analyzing information related to maternal, adolescent, and child health. Contribute to the development of evidence-based strategies and interventions.
- **Project Assistance:** Collaborate with team members to provide support for ongoing projects. Assist in project planning, implementation, and evaluation. Contribute to the creation of project reports and presentations.
- **Data Collection and Analysis:** Assist in collecting and organizing data from various sources, such as surveys, interviews, and databases. Analyze data using statistical software and contribute to data interpretation and reporting.
- **Communication and Collaboration:** Collaborate with team members to coordinate project activities and communicate progress. Contribute to the preparation of presentations, reports, and other communication materials. Participate in team meetings and discussions.
- **Quality Assurance:** Contribute to quality assurance efforts by ensuring accurate and timely data collection, maintaining documentation, and following established protocols and guidelines.

### Qualifications

- Currently pursuing or recently completed a degree in public health, maternal and child health, or a related field.
- Strong interest in maternal, adolescent, and child health issues.
- Excellent research and analytical skills, with the ability to gather, analyze, and interpret data effectively.
- Proficient in using statistical software (e.g., SPSS, SAS, R) for data analysis.
- Strong written and verbal communication skills.
- Ability to work independently and collaboratively in a team environment.
- Detail-oriented and highly organized, with the ability to manage multiple tasks and meet deadlines.

### Job Benefits

- **Learning and Professional Development:** As a Match Intern at the Maternal, Adolescent, and Child Health Institute, you will have the opportunity to enhance your knowledge and skills in the field of maternal, adolescent, and
