Zutari: Engineering Graduate Programme 2024 / 2025 Apply Now

Description

Join Zutari's Engineering Graduate Programme for 2024/2025, where your ambition and potential will meet real-world infrastructure challenges. This programme provides recent graduates with valuable, hands-on experience to refine technical skills and develop into registered engineers and future industry leaders. You'll work alongside multidisciplinary experts combining technical mastery, creative intelligence, and digital innovation to make a lasting impact on society. This is your chance to transform your academic knowledge into practical solutions while evolving into a holistic, solution-driven professional.

Programme Overview

Our programme is designed for graduates who want to:

- Work collaboratively in a team of leading industry professionals.
- Gain exposure to a wide range of engineering and infrastructure disciplines.
- Develop professional skills that support registration as an engineer.
- Tackle complex challenges to contribute to sustainable development in Africa.

Requirements

We welcome applications from final-year BSC, BEng undergraduates and master's students in the following fields:

- Civil Engineering (Infrastructure, Structures, Water, or Transport)
- Structural Engineering (Bridges)
- Mechanical Engineering
- Electrical Engineering (including Electronic and Mechatronic Engineering)
- Data Science/Engineering
- Geoinformatics
- Industrial Engineering
- Chemical Engineering
- Geotechnical Engineering
- Environmental and Engineering Geology

Job Benefits

At Zutari, we pride ourselves on blending creativity with technical expertise to deliver innovative solutions across Africa's engineering landscape. As a part of our team, you'll have access to mentorship, training, and diverse project experiences that shape both your career and the world around you.
